A Borderless, Transparent Web3 Affiliate Economy

CORE FOUNDATION

Smart Contract Automation

Built 100% on autonomous blockchain smart contracts. Zero human interference, no administrative delays, and no back-office manipulation.

Instant Self-Custodial Payouts

All commissions and rank rewards transfer directly to your Web3 wallet in real time. The platform never holds custody of member funds.

Accessible \$10 Micro-Entry

A universal \$10 activation enables anyone worldwide to start, build a network, and scale through 12 doubling rank tiers.

Global Single-Leg Queue

A unified timestamped queue where total worldwide community growth powers rank progression under the mathematically sound 2-ID law.

**OUR MISSION**

To empower individuals worldwide through an open, transparent, and self-custodial digital network where automated smart contracts guarantee instant, fair, and frictionless reward distribution.

OUR VISION

To establish the world's most trusted, scalable, and resilient Web3 community ecosystem, uniting millions of digital affiliates into a self-governing, borderless economy.

100% On-Chain Transparency

Every transaction and rank upgrade is permanently verifiable on public blockchain.

Universal Financial Inclusion

Low \$10 entry barrier removes geographical and financial restrictions for all builders.

Complete Asset Sovereignty

Non-custodial routing ensures participants retain total ownership of their crypto funds.

4-STEP VALUE ENGINE

01 CONNECT

Connect your Web3 self-custody wallet (MetaMask, Trust Wallet) directly to the decentralized platform.

Non-Custodial Web3
Wallet

02 ACTIVATE

Activate your verified Junior node with a \$10 USDT micro-entry and enter the global single-leg queue.

\$10 Micro-Entry • Active
Node

03 EXPAND

Share your referral link. Direct referrals earn 5% instantly and qualify you for higher progressive rank tiers.

5% Direct • Qualify
Ranks 1 to 12

04 REWARD

When 2 IDs of matching rank join below you in the queue, smart contract triggers rewards directly to your wallet.

2-ID Law • Instant
Wallet Payout

Four Core Interconnected Web3 Infrastructure Modules

MODULAR SUITE

SEORALINK NETWORK

Global peer-to-peer affiliate backbone connecting marketers, affiliates, and digital leaders worldwide without intermediaries.

• Global P2P Protocol • Borderless Reach

SEORALINK WALLET

Non-custodial cryptographic wallet interface ensuring full self-custody, private key ownership, and instant direct commission routing.

• 100% Self-Custodial • Zero Third-Party Risk

SEORALINK REWARDS

Deterministic smart contract distribution engine autonomously executing 5% direct, 5% upline, and 12-tier rank distributions.

• Autonomous Logic • Real-Time Settlement

SEORALINK PARTNER

Institutional partner workstation delivering live on-chain analytics, lineage telemetry, team qualification metrics, and earnings tracking.

• Live Telemetry • Partner Workstation

Trust Through Deterministic Code & Public Ledger Verification

BLOCKCHAIN SECURITY

Smart Contracts

Pre-programmed code governs registration, queue placement, and instant payouts without human intervention.

AUTONOMOUS EXECUTION

Public Ledger

Every account activation, rank elevation, and commission transfer is permanently recorded on-chain for open auditing.

100% AUDITABLE

Self-Custody

No central treasury holds member funds. Commissions go directly into user-controlled Web3 wallet addresses.

ZERO ESCROW RISK

Immutable Rules

The 12-rank ladder, 2:1 progression ratio, and withdrawal splits cannot be modified or paused by third parties.

TAMPER-PROOF

Decentralized Guarantee: Code executes exactly as programmed. Users retain complete control of their private keys.

The Single-Leg Advancement Law: Global Community Spillover in Action

CORE MECHANIC

01 • Universal Single-Leg

All members worldwide join a single FIFO timestamped line. No leg balancing, no split trees. The entire community drives progression.

Universal Queue Order

02 • The 2-ID Rule

To complete any rank, exactly **2 IDs of matching rank** must be placed below you in the global sequence.

2 IDs Below = Reward Trigger

03 • 2:1 Mathematical Math

The 2 matching incoming rank units fund: (1) Your net rank reward payout, and (2) Your auto-upgrade into the next doubling rank.
